World Glaucoma Day March 2023

Glaucoma is the name of several eye diseases that can cause vision loss by damaging the optic nerve. A day is observed worldwide as part of the week set aside to raise awareness and eliminate blindness caused by glaucoma. Hence to commemorate World Glaucoma Day Dr.Agarwals' Eye Hospital conducted Human Chain to create awareness on Glaucoma, on March 11, 2023. NSS & YRC students of Annai Hajira Women's College participated in the Human Chain in front of Dr.Agarwals' Eye Hospital, Tirunelveli.

Known as the 'silent thief of sight' glaucoma develops slowly and often without any symptoms, leaving people undetected until the disease reaches an advanced stage. Left untreated, it can cause vision loss and may even lead to blindness. Hence to spread the word and raise awareness the students participated in the Rally.

Dr.Saroja, City Health Officer started the Human Chain and Office bearers of Indian Medical Association, Tirunelveli branch enlightened the function with their awareness speech.
